**NATIONAL EMERGENCY MEDICAL SERVICES ASSOCIATION’S
EXCEPTIONS TO THE HEARING OFFICER’S
REPORT ON OBJECTIONS**

The National Emergency Medical Services Association (“NEMSA”) files this
exception to the Hearing Officer’s Report On Objections issued on May 15, 2015.

Pursuant to section 102.69 of the board’s rules and regulations

A careful examination of the record clearly shows that the hearing officer’s
conclusions were in error and not based on the factual record and testimony
appearing therein, to the contrary, the record and witness testimony, both from

intervenor and petitioner witnesses along with the volumes of exhibits, show the exact opposite than what the hearing officer concluded and provide substantive evidence of petitioner NAGE's grievous misconduct. In fact the hearing officer's report and recommendation itself provides argument that substantiate each of intervenor NEMSA's objection's, notwithstanding the hearing officer's incorrect conclusions in her report.

It is this misconduct, as proven in the record, by petitioner NAGE that destroyed the laboratory conditions requisite under the act for a fair election free from restraint, coercion, or interference and why the board should not accept the Hearing Officers Report and recommendation on objections and should further order the election in the above captioned case be set aside and a new election conducted.
